Google... *It's Not Just a Search Engine*

with
**Dr. Debra Hargrove,
Florida Technet.**

Sure, you've heard of Google... who hasn't? It's the world's most popular search engine. In fact, you've probably even been known to "Google yourself" every now and then, right? Well, while "ego-surfing" is a fun pastime, it's time to look at Google in a new light. Join us as we go inside Google and find resources and activities that can make our lives more pleasant, our jobs more productive and our days a bit more fun.

This interactive workshop will allow participants to access the Google website and create lesson plans based on Google resources.
